

FIELD SERVICES

Why Us?

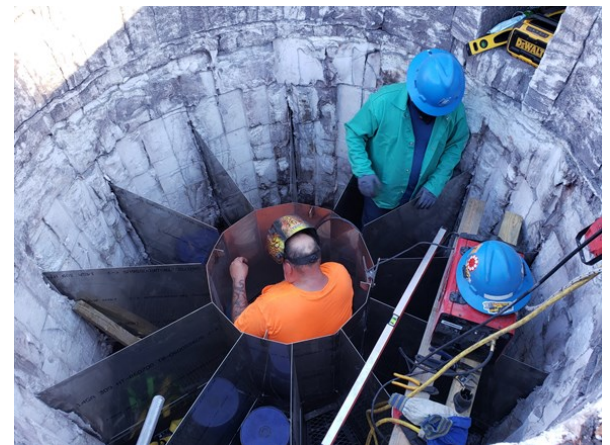

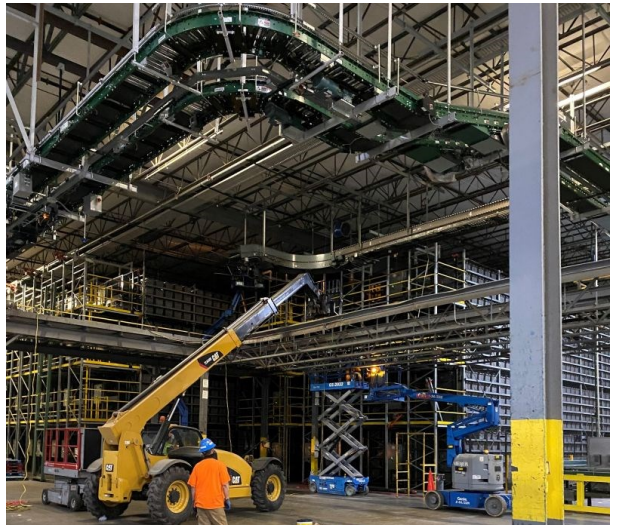

Pro-MEC Engineering Services, Inc. is an established company which provides professional services while working with the customer to meet their unique needs. With us, you become part of our family, and will receive exceptional attention to your project.

What We Do:

Pro-MEC Engineering Services, Inc. specializes in field services and can complete any project, large or small. Our expertise includes maintenance, preventative maintenance, and troubleshooting.

Our Services:

- Media change outs, including Regenerative Thermal Oxidizer (RTO) units
- Wet scrubber packing change outs
- Emergency services/troubleshooting in both air pollution and material handling
- Electrical and controls
- Demolition of existing systems
- Baggage handling and jet bridges for airports

Testimonial:

"The Pro-MEC team I worked with on a media change out of a four-tower RTO in Alabama was detail oriented and efficient. Their work is exemplary! I will work with them any time!"

- John Tracy, Dürr, USA
